

Additional Body/Footer information Click on the **Body/Footer** tab

If you wish, you can include a line that will display the current date to your visitors
You can also add the "Last modified date," but the Counter option is not available at this
time .

Include 'last modified' date at bottom of page Include Counter at bottom of page

When you view your Home Page at this stage, you may find that you have to scroll down to
view the footer information. You can adjust the page height by adjusting

Page Height (%):
